WORK EXPERIENCE

DataRole Inc | *Director of Management Information Systems*

2015 - 2018

Member of Senior Management Team; responsible for direct supervision of Development Team.   Analyzed technology and industry trends to determine organizational objectives, and then develop strategic plans to meet goals. Responsible for ETL of hundreds of thousands of varied data sources. Developed adaptable database structure that manages hundreds of millions of records and sub-second API response times over thousands of requests per second. Designed and implemented economical, cloud-based infrastructure utilizing Amazon Web Services.

MFM Software Inc | *Senior Software Engineer, Lead Developer*

2011 - 2015

Project Manager and Lead Developer for a data-driven real-estate software provider. Responsible for ETL of MLS data from surrounding regions, as well as integration of third-party data feeds. Developed database structure that managed millions of searches from hundreds of thousands of visitors a day. Created front-end solutions utilized by the public to facilitate the property searches. Managed Rackspace Web Services.

Modern Media and IT | *Software Engineer, Lead Developer*

2008 - 2011

Lead Developer, Project Manager and Full-Stack Software Engineer responsible for numerous products and intellectual properties for medical, education, entertainment and advertising industries.

Xperianz LLC | *Software Engineer, Developer*

2004 - 2008

Software Engineer responsible for design and development of BPO tools to streamline the following business processes: communication, sales pipeline, time recording, client billing, automated document generation and reporting.
